Overall summary

We carried out an announced comprehensive inspection at David Lewis GP Service on 9 January 2019 as part of our inspection programme.

We based our judgement of the quality of care at this service on a combination of:

- what we found when we inspected
- information from our ongoing monitoring of data about services and
- information from the provider, patients, carers, the public and other organisations.

We have rated this practice as good overall and good for all population groups.

We found that:

- Staff understood and fulfilled their responsibilities to raise concerns and report incidents and near misses.
- The practice reviewed the effectiveness and appropriateness of the care it provided. It ensured that care and treatment was delivered according to evidence-based guidelines.

- Care and treatment was person-centred and delivered in accordance with the individual needs of each patient.
- There were clear processes to assess a patients' capacity to give consent and to involve appropriate individuals, including those legally appointed, in any assessments to determine care and treatment.
- The practice respected patients' privacy and dignity. Patients were treated with compassion and respect.
- The practice organised and delivered services to meet the needs of its patient population. Adjustments were made to ensure patients received the care and treatment they required.
- There was a system in place for investigating and responding to feedback from patients, carers and advocates including complaints.
- There was a focus on continuous learning and improvement at all levels of the organisation.

Details of our findings and the evidence supporting our ratings are set out in the evidence tables.
